

# CRUISERKHANA 2010

## The Thinking Driver Four Wheel Drive Event

We have much pleasure in announcing the 2010 Cruiserkhana. The event will be held on the weekend of 17<sup>th</sup> and 18<sup>th</sup> April 2010.

The Cruiserkhana will be held as previously at the Club's property at Yarck, which is one and half-hours drive from Melbourne. Remember the gates will open at 12 noon on Friday 16<sup>th</sup> April 2010 to allow you to take full advantage of the excellent campsites and facilities available. All competitors must be checked in at the gate by Saturday morning and in time to attend the briefing at 8.00 am.

This year we are running two classes of events, Standard and Touring. The Touring class will challenge the more experienced drivers, while the Standard class allows for drivers to have fun with less challenging events. Please note the entry conditions relating to vehicles for these two events. Details of these classes are enclosed with the entry form included with this announcement. On Sunday morning we will run a fun event for all drivers, completing what will be an enjoyable weekend.

The fees, which include a fantastic three-course meal in our Yarck Hilton, are as listed on application form. On Saturday and Sunday there will be a kiosk with hot food and drinks in the competition area for your convenience.

**All vehicles must be registered and roadworthy** – e.g., tyres must not protrude outside of body of vehicle. **The maximum tyre size is as stipulated in the enclosed class rules.** Please read this section of the rules with extreme care. All occupants in all events must wear seatbelts.

Important: Please note that tyres **MUST** fit through the gauge as described in the Touring class rules to be admissible to the competition. Do **NOT RELY** on the fact that the tyre is marked as 33 inch. There is a significant variation in size between some brands of tyres sold as 33 inch.

In the interest of other competitors, we request noise levels be kept to a minimum after 10.00 pm with lights out by midnight. Camp fires (if permitted) must also be extinguished at the same time. It will be at the discretion of the organisers whether camp fires will be permitted.

Yours in 4 Wheel Driving,

Tony Bryant  
Cruiserkhana Co-ordinator

# CRUISERKHANA 2010

## GENERAL INFORMATION

### REQUIREMENTS. For your comfort and ours!

- BYO water. Cutlery, Crockery and Chairs. (You need to sit down and enjoy your meal)
- You may want to eat outside, if it's a nice night, we suggest you bring your camp table.

**PLEASE COMPLETE BOTH SIDES OF THIS FORM**

## **Rules of the Event**

All competitors should read all rules accompanying this application form. Any vehicles not complying with these rules will not be allowed to compete.

Important: Please note that tyres **MUST** fit through the gauge as described in the Touring class rules to be admissible to the competition. Do **NOT RELY** on the fact that the tyre is marked as 33 inch. There is a significant variation in size between some brands of tyres sold as 33 inch.

No correspondence will be entered into with respect to competition decisions and all decisions reside with the organising committee.

## **Refund Policy**

No refund of Entrance Fees will be given if :

- 1) Cancellation is received within 10 days of the event.
- 2) A vehicle does not comply with the Rules of the Event

## **Vehicle Movements approaching and within the property**

All vehicles travelling along Rennies Lane, being the dirt road leading up to the property **MUST NOT** exceed 40 KMs PER HOUR in the interests of our neighbours around the property

Speed limits within the property are 20 kms per hour.

Any passengers travelling in vehicles around the property must be correctly contained within the vehicle. Any vehicles such as utilities etc carrying passengers in the rear of the vehicle will be disqualified from the event immediately.

If the vehicle concerned is not competing but is a spectator visiting the event, the driver and passengers will be asked once to comply with proper road rules. If they fail to agree with the request, they will be escorted from the property and will not be allowed to bring the vehicle back onto the property.

## **Open fires on the property**

No open fires will be allowed unless specific approval is given by the organising committee.

## **Lights Out**

It is requested that all competitors and visitors respect other peoples rights regarding the level of noise and music whilst on the property.

It is requested all loud activities be ceased by 10.30 pm

## Cruiserkhana 2010 Rules

### TOYOTA LANDCRUISER CLUB of AUSTRALIA (Vic) Inc. Rules Adopted from CCDA Rules of Competition

#### 4.2 STANDARD CLASS

##### 4.2.1 TYRES

*Tyre sizes shall be limited to those originally specified by the vehicle manufacturer.*

*Tyres shall be enclosed within the width of mudguards and flares*

##### 4.2.2 WHEELS

*Wheels shall be limited to the same size and offset as those originally specified by the vehicle manufacturer for the vehicle. Bead locks shall not be permitted. Wheel spacers shall not be permitted.*

##### 4.2.3 AXLES

*Axle housings shall be original but may be protected. Axle internal components shall be original and extension breathers may be fitted.*

##### 4.2.4 BRAKES

*The original braking system shall be retained unmodified except for the composition of the brake pads/linings. The handbrake shall be as originally fitted and shall be operational.*

##### 4.2.5 DIFFERENTIALS

*The original differential system shall be retained unmodified.*

*Differential ratios shall not be changed.*

*Should differential locks be fitted to the vehicle as original equipment the vehicle shall not be eligible to compete in this class but may be eligible to compete in any class above this vehicle class.*

##### 4.2.6 GEARBOX

*The original gearbox shall be retained unmodified.*

##### 4.2.7 TRANSFER CASE

*The original transfer case system shall be retained unmodified. Transfer case ratios shall be those available for that vehicle model and year. The transfer case and differentials shall be operative and capable of driving all four wheels.*

##### 4.2.8 STEERING

*Original steering boxes shall be retained in their original location and shall be unmodified.*

*Original steering linkages and components shall be retained unmodified but may have protection fitted to them.*

##### 4.2.9 SUSPENSION

*Shock absorbers and bushes shall be retained unmodified (except for normal service replacement with non-genuine parts) and the original number and location shall be retained.*

*[TLCV Addendum](#) - The original spring design shall be retained unmodified except for the allowance of no more than 50mm spring lift. Original suspension linkages/pins shall be retained unmodified.*

##### 4.2.10 ENGINE

*The original engine shall be retained unmodified.*

*Snorkels and aftermarket air filters are free. Oil filters are free except the original method of attachment shall be retained.*

##### 4.2.11 ELECTRICAL

*Alternators shall be retained unmodified. Headlight inserts and globes are free. Tail lights, stop lights and reversing lights shall be retained unmodified.*

##### 4.2.12 EXHAUST SYSTEMS

*The original exhaust system shall be retained unmodified except for normal service replacement with non-genuine parts.*

##### 4.2.13 CHASSIS

*The original chassis shall be retained unmodified. Protection plates may be added for protection but not for strengthening purposes.*

##### 4.2.14 BODY

*The original body shall be retained unmodified except that additional mud flaps, door sills and flares may be added for protection.*

#### **4.2.15 LIGHTS**

Vehicles may be fitted with up to four driving lights in addition to the original headlights and driving lights. Driving lights shall be mounted at the front of the vehicle and shall operate with the high/low beam switch in conjunction with the headlights and shall be fitted in accordance with relevant registration requirements. It is strongly recommended that a dust lamp be fitted to the rear of the vehicle.

#### **4.2.16 FUEL**

The original fuel system shall be retained.

#### **4.2.17 WINCHES**

*TLCV Addendum* - All vehicles must be fitted with one (and only one) operational powered winch when competing in an event where winching is required. *Winching will not be required in any TLC events.*

Electric winches may have some additional bracing, improved bearings, improved lubrication and an alternative DC motor with upgraded controls, but must remain in its original configuration.

PTO and Hydraulic winches they must be as designed by the supplier.

### **4.3 TOURING CLASS**

#### **4.3.1 TYRES**

Tyre sizes shall be limited to 33x12.5 or metric equivalent **and must pass through a gauge with internal dimensions of 840mm and 320mm at 20psi or 1.4bar. Track increase shall be limited to 50mm.** Tyres shall be enclosed within the width of mudguards and flares

#### **4.3.2 WHEELS**

Wheels shall be limited to a rim width of 203mm (8") and any offset shall be such that the tyre shall be enclosed within the width of mudguards and flares. Bead locks shall not be permitted. Wheel spacers shall not be permitted.

#### **4.3.3 AXLES**

Axle housings shall be original but may be protected. Axle internal components shall be original and extension breathers may be fitted.

#### **4.3.4 BRAKES**

The original braking system shall be retained unmodified except for the composition of the brake pads/linings. The handbrake shall be as originally fitted and shall be operational.

#### **4.3.5 DIFFERENTIALS**

The original differential system shall be retained unmodified except that differential locks may be fitted. Differential ratios are free.

#### **4.3.6 GEARBOX**

The original gearbox shall be retained unmodified.

#### **4.3.7 TRANSFER CASE**

The original transfer case system shall be retained unmodified. Transfer case ratios shall be those available for that vehicle make. The transfer case and differentials shall be operative and capable of driving all four wheels.

#### **4.3.8 STEERING**

Original steering boxes shall be retained in the original location and shall be unmodified.

Original steering linkages and components shall be retained unmodified but may have protection fitted to them.

#### **4.3.9 SUSPENSION**

Selection of shock absorbers and bushes is free except that the original number and location shall be retained.

*TLCV Addendum* - The original spring design shall be retained except that components may be modified or replaced with aftermarket units. A maximum of 50mm spring lift will be allowed.

Original suspension linkage or pin configuration, length and positioning shall be retained but may be strengthened.

#### **4.3.10 ENGINE**

The original engine shall be retained unmodified except that alternative engine management systems, and in the case of diesel engines an aftermarket turbocharger, supercharger and intercooler, may be fitted.

Snorkels and aftermarket air filters are free.

Oil filters are free except the original method of attachment shall be retained.

#### **4.3.11 ELECTRICAL**

Original alternators shall be retained unmodified. Headlight inserts and globes are free. Tail lights, stop lights and reversing lights shall be as originally fitted

#### **4.3.12 EXHAUST SYSTEMS**

*The exhaust system is free.*

#### **4.3.13 CHASSIS**

*The original chassis shall be retained unmodified. Strengthening with the additional bracing is permitted. Spring and shock absorber mountings may be strengthened. Protection plates may be added for strengthening and protection purposes.*

#### **4.3.14 BODY**

*The original body shall be retained unmodified except that additional mud flaps, door sills and flares may be added for protection.*

#### **4.3.15 LIGHTS**

*Vehicles may be fitted with up to four driving lights in addition to the original headlights and driving lights. Driving lights shall be mounted at the front of the vehicle and shall operate with the high/low beam switch in conjunction with the headlights and shall be fitted in accordance with relevant registration requirements. It is strongly recommended that a dust lamp be fitted to the rear of the vehicle.*

#### **4.3.16 FUEL**

*The original fuel system shall be retained. Alternative fuel such as LPG may be fitted in accordance with State and National Regulations.*

#### **4.3.17 WINCHES**

*[TLCV Addendum](#) - All vehicles must be fitted with one (and only one) operational powered winch when competing in an event where winching is required. [Winching will not be required in any TLCC events](#) . Electric winches may have some additional bracing, improved bearings, improved lubrication and an alternative DC motor with upgraded controls, but must remain in its original configuration. PTO and Hydraulic winches they must be as designed by the supplier.*
